MONTANA

1988 BIG GAME
HUNTING REGULATIONS

GUIDE TO USING THE REGULATIONS

The regulations are compiled into three main segments. Each segment is color coded to further clarify the regulations.

General Information — All segments prefaced by a light purple color bar are designed to provide sportsmen with general information on license purcheses and big game hunting rules and regulations. Also, answers to some of the most common questions asked by sportsmen, as well as Montana's sunrise and sunset tables, can be found under these light purple color-coded segments. In addition, the map segments under a light purple color bar will define regional administrative boundaries and help you to easily locate each regional headquarters.

General Big Game Licenses and Season Dates — All segments prefaced by a red color bar are designed to provide sportsmen with detailed, species-specific information for the type of licenses required to hunt: deer, elk, black bear, grizzly bear, and mountain lion. Also, each hunting district's general season and archery season opening and closing dates, as well as each hunting district's bag limits can be found under these red color-coded segments.

Special License and Permit Drawings — All segments prefaced by a blue color bar are designed to supply sportsmen with the information they will need to properly apply for all licenses and permits that are awarded through special drawings. The special drawings are for a limited quota of licenses and permits for: deer, elk, antelope, moose, sheep, goat and buffalo. Under these blue color-coded segments, sportsmen will also find specific information on season dates, tentative harvest quotas set by each hunting district and the sportsmen's reporting requirements after an animal is harvested.

GENERAL REGULATIONS

Property Laws

Permission to Hunt Big Game — Montana law requires that big game hunters must have permission of the landowner, lessee or their agent before hunting big game animals on private property, regardless of whether the land is posted or not.

Obtain Permission Early — Approximately 70 percent of Montana's hunting districts are comprised of private land. In some hunting districts, it is difficult to obtain access to private lands. Sportsmen should secure landowner permission before applying for a special license/permit in these areas.

Trespass — Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. If permission is granted, the landowner may revoke permission by personal communication at any time.

Posting Requirements — Notice denying entry to private land must consist of written notice on a post, structure or natural object or by painting a post, structure or natural object with at least 50 square inches of fluorescent orange paint. In the case of a metal fencepost, the entire post must be painted. This notice must be placed at each outer gate and all normal points of access to the property, as well as on both sides of a stream where it crosses an outer property boundary line. Sportsmen are reminded that they must have landowner permission before hunting big game animals on private property, regardless of whether the land is posted or not.

Closed Areas

State Game Preserves, closures, and National Parks shall remain closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office. Hunting privileges on Indian Reservations are limited to tribal members only.

Wildlife Management Areas (Game Ranges) are closed to public entry from December 1 to May 15 each year, as posted.

Motorized Vehicle Travel

Sportsmen are not allowed to drive off established roads or trails. An exception is sometimes granted to retrieve a harvested game animal. In all cases, however, when on private property, sportsmen must first obtain permission of the landowner. On public lands, sportsmen must first obtain permission from the appropriate authorities to drive off established roads to retrieve their game animal.

Firearms

Rifle Caliber — There is no rifle caliber limitation for the taking of big game animals in Montana. However, the use of poisonous, explosive or deleterious substances on or in any bullet or projectile is prohibited.

Shotgun — Sportsmen are prohibited to shoot deer with shotguns except with loads of 0 buck, 00 buck or single ball loads.

Muzzleloader — In hunting districts restricted to archery, shotguns and muzzleloaders, the muzzleloaders must use a round ball .45 caliber or greater.

Tagging and Transporting Big Game

Tagging — Immediately after harvesting a game animal, sportsmen must cut out the proper month and the day of the harvest from the appropriate license/tag and attach to the animal in a secure and visable manner. If more than one date is cut out, the licanse is invalid. The properly valideted license shall remain with the meat until consumed (including cold storage). If quartered, the license should remain with the carcass or largest portion of the carcass.

Transporting — Properly tagged big game animals may be transported to any destination by the license holder. Properly tagged big game animals being transported by an individual other than the license holder should be accompanied by written authorization from the license holder listing: 1) date of kill, 2) location of kill, 3) species and sex of animal being transported, 4) origin and destination of such transportation, 5) name, address and home phone number of the person who killed the animal, and 6) the name, and address and home phone number of the individual transporting the animal.

Evidence of Sex Requirements

It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains **naturally attached** to its carcass or a portion of the carcass.

In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, some other evidence of sex must remain naturally attached to the carcass or a portion of it.

The following are considered lawful evidence of sex:

- **Horned or Antlered Game Animals:** Male—head with the horns or antlers naturally attached, penis, testicles or scrotum. Female—head or udder (mammaries).
- **Bears and Mountain Lions:** Male—testicles or baculum. Female—vulve.

Evidence of an animal's sex and species must be retained until the animal's meat is processed (cut and wrapped) or until a bear or mountain lion is checked by a Department employee or delivered to a taxidermist.

Sportsmen harvesting a big game animal, if required by the Department, must physically return to the kill site for inspection.

Required Clothing Color

Any person hunting or accompanying a sportsmen as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.

Attention Archers: Archers must wear a minimum of 400 square inches of hunter orange above the waist while hunting in any hunting district where firearms are also permitted to be used. The hunter orange requirement is not in effect during the special archery seasons, which are specifically listed in these regulations as: "ARCHERY ONLY".

Hunting Hours

Authorized hunting hours for the taking of big game animals begins one-half hour before sunrise and ends one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 36 of these regulations.

Game Limits

No person may kill more than one big game animal of any one species in any one license year, unless otherwise specified.

Checking Stations

All sportsmen are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if there is no game or fish to be checked.

Hunter Education

- Resident sportsmen 12-17 years of age are required by law to have a Montana Hunter Education Certificate of Competency in the safe handling of firearms before they may purchase a hunting license. The Certificate of Competency is awarded to resident youths who have successfully completed Montana's Hunter Education Program.
- New residents of Montana 12-17 years of age should check with their local Fish, Wildlife and Parks office to determine if their out-of-state hunter education course can be accepted in lieu of completing Montana's Hunter Education Program.
- Recent legislation requires both resident and nonresident youths 12-17 years of age that wish to archery hunt, to provide a Certificate of Competency in the safe handling of bow hunting tackle, in addition to the Certificate of Competency in the safe handling of firearms.
- Persons applying for the 1988 special drawings must be at least 12 years of age before September 15, 1988, and provide required proof of successfully completing a Hunter Education Program at the time of applying for the special drawings.
- Youths under 14 years of age must be in the company of a parent or legal guardian while big game hunting.

Do Not Disturb Traps

Montana trappers are permitted to trap fur-bearing animals during designated seasons, predatory, and some non-game animals most of the year. Sportsmen afield who find a trap are prohibited from disturbing the traps or trapped animals.

Outfitters and Guides

It is illegal to hire or retain any unlicensed outfitter or guide. For information or verification, telephone the Department of Commerce at 444-3737.

Littering

A person convicted of littering while hunting, fishing or camping shall forfeit his license or privileges to hunt, fish or camp within Montana for a period of one year.

Marked Animals

It is legal to shoot big game animals that have radio collars, neck bands or markers, but markers and radios must be returned to the Department of Fish, Wildlife and Parks.

Game Damage Seasons

The Department may authorize a special season (before or after the general hunting season) to alleviate game causing property damage.

AVOID VIOLATIONS OF THE LAW

- Sportsmen are prohibited from wasting eny part of any game animal, game bird or game fish that is suitable for food. Game animel parts that ere defined es being "suitable for food" are: all of the four quarters above the hock, including loin and backstrap. (The law does not apply to black bear, grizzly bear and mountain lion.)
- Sportsmen ere prohibited from shooting or attempting to shoot a geme enimal from e motorized vehicle (car, truck, boat, snowmobile, motorcycle, ell-terrain-vehicle, airplane, etc.) even if the vehicle is not moving.
- Sportsmen ere prohibited from shooting or attempting to shoot a game animal from public (federal, state, county) highways or from the public right-of-way (shoulder, berm or barrow pit) along those highways.
- Sportsmen ere prohibited from using eny motorized vehicles (including airplanes) to concantrate, drive, rally, stir up or harass game animals or fur-bearing animals.
- Sportsmen are prohibited from transferring their licanse to another person or using e license issued to another person.
- Sportsmen are prohibited from hunting or taking eny game animal without having e velid license on their person.
- Sportsmen are prohibited from hunting or taking any game animal by the aid or with the use of eny set gun, jacklight or other artificial light, trap, snare, or salt lick, nor may any such aforementioned devica to entrap or entice game animals be used, made, or set.

COMMON QUESTIONS & ANSWERS

What is the difference between a license and a permit?

A license effords you the opportunity to kill e big game enimal es specified on the licanse.

A permit is issued through the special drawings and must be used in conjunction with e hunting license. It does not authorize you to kill e second enimal, but rather, enhances your hunting opportunity in e specific hunting district by awarding you speciel privileges.

What is the difference between a deer A and a deer B license?

The deer A license is valid for one deer during the generel seeson end can be utilized in eny deer hunting district in the state for the species end sex indicated for that hunting district under the general season regulations. There ere some excaptions to this generel statement end sportsmen should check the regulations specific to the hunting district in which they wish to hunt.

The deer B license is valid for one deer subject to restrictions of seesons, species end sex, and hunting district(s). The deer B license is most often valid for entlerless deer. More than one deer B license per sportsmen mey be eveileble in some hunting districts.

What can I do if I lose my license?

Duplicate licanses may be obtained by filing en affidavit stating your originel licanse is beyond recovery, with your local geme werden or with e Fish, Wildlife end Perks office. Upon peyment of the specified fee, you mey be issued a duplicate. Duplicate licanses ere issued et the time of epplication.

What archery equipment is legal to use during ARCHERY ONLY seasons?

- **Long Bow** - e bow of the Medievel English type with the limbs and handle one continuous piece. There is little or no curving in the limb when unstrung.
- **Recurve Bow** - e bow with laminetions of wood and/or epoxy resin type material and curve forwerd et the limb tips.
- **Compound Bow** - a bow using e combination of recurve and longbow limb design in which the limbs mey be streight, short, laminated or epoxy type, but wider at the tips and adjustable for poundage. A type of eccentric wheels and cables assist in drawing the bow for the mechanical edvantage that peak weight is reduced et full draw.
- **Crossbows** - may not be used during ARCHERY ONLY seesons.

May I hunt with a bow and arrow during rifle season?

Yes. But, you must conform to the rifle season regulations. This includes wearing hunter orange.

Why aren't the special drawings for licenses and permits held sooner?

The tentative quotas listed in these regulations for deer B licenses, nonresident deer A licanses and deer permits, elk permits and entelope licenses are finelized in early August of each yeer. The tentative quotas for moose, sheep, goat end mountain lion licanses ere finalized in lete June of each year. This ellows the Department to utilize hervest information from the previous hunting seeson and other biological information collected during the spring and summer on the status of the various populetions in setting final quotas.

What is the special drawings process?

Applications must be postmarked no later then **June 1, 1988,** to be considered for the special drawings.

Drewing	The Special Drewing will take plece during the second week of August. All drewings ere held in succession. Results will not be mede eveileble until ell drawings ere complete.
Notification:	All special licenses end permits will be mailed during the third week of August.
Refunds:	Refunds will be meiled to unsuccessful epplicants during the final week of August.
Surplus licanses:	Information regarding surplus licanses will be made eveileble efter Labor Day.

PLEASE DO NOT CALL FOR SPECIAL DRAWING RESULTS. If you have not received either e license or e refund by early September, call Special Licensing at 406/444-2950.

What are Montana's residency requirements?

"Resident" means eny person who hes been a legal resident in the State of Montana for six (6) consecutive months immediately prior to purchasing a license, end who does not claim residency in any other state or country.

Where may I obtain detailed maps?

The Department of Fish, Wildlife end Perks does not provide eny maps other than those included in these reguletions. Agencies listed below may be contacted to supply erea meps. Maps renge in price from $1.25 to $5.00.

- Individual National Forest and travel maps of each National Forest that show restrictions on vehiculer use can be obtained by writing to the U.S. Forest Service, Northern Region, Federal Building, P.O. Box 7669, Missoula, MT 59807.
- The Bureau of Land Management offers land status qued maps for most ereas of the state. BLM meps mey be obtained by writing the BLM, P.O. Box 36800, Billings, MT 59107.
- Topogrephical maps may be obtained by writing the Western Distribution Branch, U.S. Geological Survey, Box 25286, Federel Center, Denver, CO 80225.
- Charles M. Russell National Wildlife Refuge meps mey be obtained by writing: CMR Menager, Box 110, Airport Road, Lewistown, MT 59457.

What is required to Transport Horses and Mules in Montana?

The Montane Department of Livestock requires e veterinary inspection certificate and en import permit prior to entry into Montana.

A brend inspection certificate is required for movement within Montana. For information call the Department of Livestock et (406) 444-2976.

Be Sure to Properly Validate Your License/Tag!

Immediately after killing a big geme animal, all hunters must properly validate the eppropriate license/tag and securely attach it to the enimel so thet it is cleerly visible.

Proper velidation is easy:

- Locate the appropriate month and day the enimal was killed and completely cut eway (notch out) the month end dey designations. The license/tag to the right, for example, has been properly velidated for an animal teken on November 17.
- **Be Carefull** The correct and eppropriate month end dey designations must be removed completely from the license/tag. Removing more than one month or one day designation invalidates the license/teg.

LICENSES & GENERAL INFORMATION

- Sportsmen may hold and fill both a deer A and a deer B license. There are no requirements regarding the order of obtaining nor the order of filling either license.
- Sportsmen are limited to one deer A license per year, which is included in the resident's Sportsman's License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders, that are landowner sponsored, are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing only. A general upland game bird license would be required to hunt statewide for upland game birds. The upland game bird license may be purchased at any Fish, Wildlife and Parks office or at most license agents throughout the state.
- Sportsmen may hold and fill more than one deer B license, subject to all specifications on the license issued. The two opportunities to obtain a deer B license(s) are:
  1. Special drawing licenses, subject to all specifications on the license issued. (Some successful special drawing applicants also may be offered the opportunity to purchase additional deer B licenses subject to all specifications on the license issued.)
  2. Over-the-counter purchase for antlerless whitetail only. (See information under "Unlimited, Multi-district, Antlerless Whitetail Deer B Licenses".)
  3. Special drawings or over-the-counter purchase of deer B licenses subject to all specifications on the license, may be coordinated by a Regional Headquarters.
- Sportsmen harvesting a deer must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Unlimited, Multi-district, Antlerless Whitetail Deer B Licenses

- Sportsmen may purchase only one multi-district deer B license per year. This may be in addition to applying for a deer B license through the special drawings.
- Licenses are available from license agents within the 400, 600 and 700 series districts and all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for antlerless white-tailed deer only.
- Licenses are valid in any hunting district beginning with the number 4, 6 or 7, with the following exception: not valid in hunting districts 400, 401, 402, 403, 406, 415, 422, 423, 424, 425, 427, 428, 435, 439, 441, 442, and 443.
- Licenses are valid Oct. 23-Nov. 27, with the following exception: valid in hunting districts 610, 640, and 641 from Oct. 23-Nov. 13 only.

Landowner Preference

- Montana landowners who qualify may receive preference in the deer B licenses and/or deer permits special drawings to hunt on their own land. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Definitions

- Antlered Buck — A deer with an antler or antlers at least four inches in length measured from the top of the skull.
- Antlerless — A deer without antlers or with antlers less than four inches in length measured from the top of the skull.
- Either Species — Mule deer or white-tailed deer.
- Four Point — Any deer having antlers with a visible branching of four or more extensions from the main antler, not counting the brow point or tine. Each extension on at least one side must be four inches in length or more measured from the main antler.

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one elk license per year, which is included in the resident Sportsman's License and the nonresident Big Game Combination License.
- Only nonresidents holding a Big Game Combination License may hunt elk.
- Sportsmen harvesting an elk must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Elk Prerequisite

- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit. Applicants must list their 1988 general elk license number in the designated space on the 1988 special drawing application form, or their application will be eliminated from the elk special drawings.

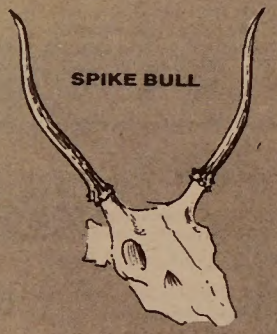
Landowner Preference

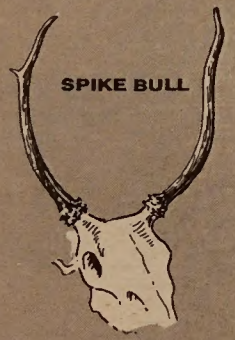
- Montana landowners who qualify may receive preference in the elk permit and A-7 cow elk license special drawings to hunt on their own land. To qualify, the applicant must own 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion. When applying landowner preference, the permit or A-7 cow elk license is valid only on land owned in fee title by the applicant within the hunting district applied for.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

Definitions

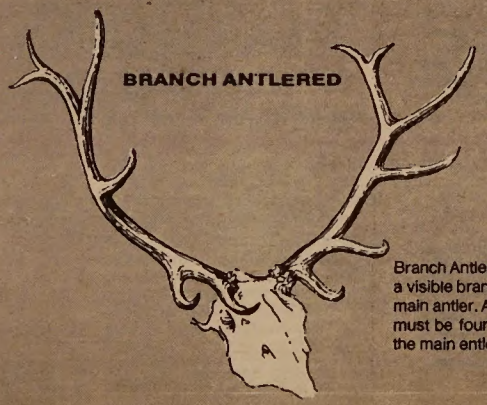
- Antlered Bull - any elk heving en antler or entlers of at least four inches in length meesured from the top of the skull.
- Antlerless - e female or juvenile male with antlers less than four inches in length measured form the top of the skull.
- Branch Antlered - any elk having en antler or antlers with e visible branching of one or more extensions from the main antler. An extension or branch on at least one side must be four inches in length or more measured from the main antler.
- Spike Bull - any elk having antlers which do not branch, or if branched, branch is less than four inches long measured from the main antler.

Montana has some elk hunting districts with special regulations governing the type of bull elk that is legal. The diagrams below are intended to assist the sportsmen in interpreting these special regulations.





Spike Bull - any elk heving entlers which do not branch, or if branched, branch is less than four inches long measured from the mein antler.



Branch Antlered - any elk heving an entler or entlers with a visible branching of one or more extensions from the main antler. An extension or brench on et leest one side must be four inches in length or more measured from the main entler.

When the quota or sub-quota is reached in the hunting district(s) or groups, the bear season for that area will close upon 48 hours notice, but no later than last date of season shown in the regulations.

Note (500 Series districts only): Any person taking a black bear in 500 series districts must report the kill within 48 hours to an employee of the Department of Fish, Wildlife and Parks in the administrative region where the kill was made, and must personally present the hide and skull within 10 days to an employee of the Department for purposes of inspection, recording sex of kill and removing a tooth for aging. The hide and head must be retained even though damaged.

ARCHERY

- ARCHERY ONLY season is September 3 - October 16, 1988.
- All legally described black bear hunting districts are open to ARCHERY ONLY with the following exceptions noted on this page.
- Licenses are valid for either sex.
- Female bears with young and individual cubs may not be harvested.
- An archery stamp, plus the proper hunting license is required of all hunters during ARCHERY ONLY seasons.
- During any ARCHERY ONLY season, only a longbow, recurve bow or compound bow may be used. Arrows dipped in or containing any poisonous, explosive or deleterious substances are prohibited.
- **Crossbows may not be used during ARCHERY ONLY seasons.**

Exceptions to the standard archery regulations

1) There is no ARCHERY ONLY season in the 100, 200 (except 284), 400 and 500 series districts.
2) Hunting District 316 open only during general deer/elk season (September 15 - November 27).

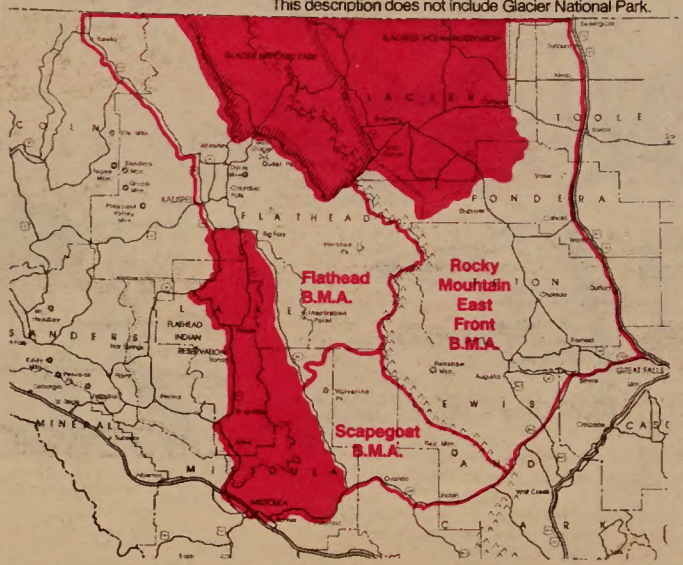
LICENSES & GENERAL INFORMATION

- Legally described Bear Management Areas (BMAs) — the Rocky Mountain East Front, Scapegoat, end Flathead — within the area known es the Northern Continental Divide Ecosystem are open to the hunting of grizzly bears of either sex beginning October 1, 1988. The grizzly bear season is scheduled to close November 29, 1988. However, any or all of the BMAs will close on 48 hours notice if the total mortality quota, or the female subquotas, ere reached before November 29, 1988.
- All grizzly bears killed by other humen activity or otherwise removed from the Northern Continental Divide Ecosystem, ere counted egainst the established mortality quota end female subquota. Thus, it is possible that the quota or the subquota could be reeched before October 1, 1988. Should that occur, the grizzly bear hunting season would not open.
- Sportsmen may purchase only one grizzly bear license per year, available from the Helena Headquarters only. Application deadline is August 31.
- Refunds for licenses will be made only upon written request to the Director, end only if a seeson is not offered or if the applicant's license is received efter the season closes in the Northern Continental Divide Ecosystem. Season closure in the sportsman's individual bear menegement area of choice will not be considered valid for a refund if the season remains open in another bear management erea.
- Sportsmen may legally harvest one grizzly bear of either sex. Female bears with young and individual young may not be harvested.
- Sportsmen ere limited to a "once-in-a-lifetime" harvest of e grizzly bear.
- To reduce the likelihood of taking e female grizzly bear, hunters are requested not to shoot grizzly bears found in groups of two or more.
- The grizzly bear license and tag must be attached to the hide immediately upon kill. Evidence of sex must remain naturally intact on the carcass or skin.
- Sportsmen harvesting a grizzly bear must, if required by the Department, physically return to the kill site for inspection.
- It is prohibited for any person to remove any portion of a grizzly bear from the State of Montana without first obtaining a trophy license.
- It is illegal to bait bears or to hunt bears with dogs.
- Sportsmen may call toll-free 1-800-332-6117 during the authorized grizzly bear hunting season to obtain current information on districts which have reached the quotas. Current harvest information may be obtained by calling the eppropriete Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 5.

LEGAL DESCRIPTIONS & AREA QUOTAS

There shall be no more than fourteen (14) grizzly bear or six (6) female grizzly bear killed by hunting or any other human activity in the following described Northern Continental Divide Ecosystem.

NORTHERN CONTINENTAL DIVIDE ECOSYSTEM — Beginning at the United States/Canadian border and Glacier National Park, then easterly along the U.S./Canadian Border to Interstate Highway 15, then southerly along said highway to State Highway 200, then southerly and westerly along said highway to Interstate Highway 90, then westerly along said highway to U.S. Highway 93, then northerly along U.S. Highway 93 to the U.S./Canadian border, then easterly along said border to the west boundary of Glacier National park, then southerly along the west park boundary and, easterly and then northerly along the south and east Glacker National Park boundary to the U.S./Canadian Border, the point of beginning. This description does not include Glacier National Park.



The following described bear management areas will be open to the hunting of grizzly bear of either sex October 1, 1988 and will close when any of the following quotas are attained, but no later than November 27, 1988.

ROCKY MOUNTAIN EAST FRONT — Beginning at the Continental Divide and Highway 200, thence northeast along said highway to U.S. Highway 89, thence east along said highway to Interstate Highway 15, thence northerly along said highway to the U.S./Canadian Border, thence west along said border to the Blackfoot Indian Reservation Boundary, thence southwesterly and northwesterly along said boundary to the Glacier National Park boundary near East Glacier, thence westerly along said boundary to the Continental Divide near Summit, thence southerly along said divide to Highway 200, the point of beginning.

QUOTA — The grizzly bear season will close on 48 hours' notice in the Rocky Mountain East Front Bear Management Area when three (3) female grizzly have been killed by hunting or other human-caused mortality.

SCAPEGOAT — Beginning at the Continental Divide and Highway 200, thence northerly along the Continental Divide to White River Pass and Molly Creek, thence west down Molly Creek to the South Fork of the White River, thence west down the South Fork of the White River to the White River, thence west along the White River to the South Fork of the Flathead River, thence north down the South Fork of the Flathead River to Big Salmon Creek, thence west along Big Salmon Creek to Pendant Creek, thence south along Pendant Creek to the Swan-Flathead River Divide, thence southerly along said divide to the Swan-Clearwater River Divide, thence southwest along said divide to State Route 83, thence south along said route to state Highway 200, thence easterly along Highway 200 to the Continental Divide, the point of beginning.

QUOTA — The grizzly bear season will close on 48 hours' notice in the Scapegoat Bear Management Area when one (1) female grizzly has been killed by hunting or other human-caused mortality.

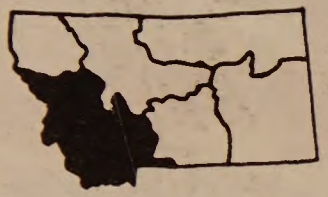
FLATHEAD — Beginning at the U.S./Canadian Border and Highway 93, thence easterly along said border to the west boundary of Glacier National Park, thence southerly and easterly along the west and south border of Glacier National Park to the Continental Divide near Summit, thence southerly along the Continental Divide to White River Pass and Molly Creek, thence down Molly Creek to the South Fork of the White River, thence west down the South Fork of the White River to the White River, thence west along the White River to the South Fork of the Flathead River, thence north down the South Fork of the Flathead River to Big Salmon Creek, thence west along Big Salmon Creek to Pendant Creek, thence south along Pendant Creek to the Swan-Flathead Divide, thence southerly along said divide to the Swan-Clearwater River Divide, thence southwest along said divide to State Route 83, thence northerly along said route to State Route 82, thence westerly along said route to U.S. Highway 93, thence northerly along said highway to the U.S./Canadian Border, the point of beginning.

QUOTA — The grizzly bear season will close on 48 hours' notice in the Flathead Bear Management Area when two (2) female grizzly have been killed by hunting or other human-caused mortality.

While the hunting season may remain open in the Northern Continental Divide Ecosystem, individual BMAs described below will close on 48 hours notice when their specific female subquotas are reached.

Each BMA has its own female grizzly bear mortality subquota. The Northern Continental Divide Ecosystem's quota, and each BMA's female subquota, include all grizzly bears killed by human activity in 1988, which may or may not include grizzly bears legally harvested by sportsmen. It is possible then, that the total grizzly bear mortality quota, or eny or all of the individual BMAs female subquotas, could be reached before October 1, 1988, which would preclude the hunting season from opening.

REGION 2 & 3



Cooperative Travel Management Areas

Through cooperative agreement with public and private landowners, motor vehicle use is limited to specific roads in several locations in Montana. Some areas involved in the program will use a green reflector posting method to designate the roads open to motorized travel. The cooperative travel management program will be in effect during the general big game season.

Multi-District ARCHERY ONLY - See Archery Section below		

ARCHERY

- All licenses to hunt antelope are awarded through the special drawings. Archers must have been awarded one of these licenses to hunt during the ARCHERY ONLY season.
- ARCHERY ONLY season is September 3 through October 8, 1988, with the following exception:
  1) Hunting district 380 open to ARCHERY ONLY from September 3 through November 6, 1988.
- All legally described antelope hunting districts are open to ARCHERY ONLY for antelope subject to all specifications on the license issued which includes hunting only in the district and for the sex of antelope listed on the license.
- An archery stamp plus the proper hunting license is required of all sportsman during ARCHERY ONLY season.
- During any ARCHERY ONLY season, only a longbow, recurve bow or compound bow may be used. Arrows dipped in or containing any poisonous, explosive or deleterious substances are prohibited.
- **Crossbows may not be used during ARCHERY ONLY seasons.**

Multi-District ARCHERY ONLY

800 Sept. 3 - Nov. 6 either sex - ARCHERY ONLY

Those hunters receiving these licenses can purchase one additional doe/fawn antelope license available over-the-counter at all F,W&P Headquarters.

Each of these licenses will be valid in the following antelope hunting districts: 400 (except 455 and 460), 500, 600 and 700 series hunting districts.

Sportsmen who apply for hunting district 800 cannot apply for an antelope license in any other antelope hunting district. Archers using these licenses during the antelope "gun" season must wear hunter's orange.

LICENSES & GENERAL INFORMATION

- Moose licenses are awarded through special drawings.
- Application deadline - June 1.
- License holders may legally take one moose subject to all specifications on the license issued.
- Sportsmen harvesting e moose must leave evidence of sex naturally attached to the carcass.
- Sportsmen harvesting a moose must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.
- There is no ARCHERY ONLY season for moose.

Recent legislation authorized the Fish and Game Commission to provide for the auction of a moose license each year. This license authorizes the sportsman to take an antlered bull moose in any district(s) of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the moose will not be counted against the district quota. This license holder may only hunt in areas open to moose hunting.

Definition

- Antlered Bull - any moose having an antler or antlers of at least four inches in length measured from the top of the skull.

LICENSES & GENERAL INFORMATION

There are two types of bighorn sheep licenses:

- **Limited Licenses** - These licenses are awarded only through the special drawing and are designed to limit the number of sportsmen in a specific hunting district(s). Sportsmen may apply for one limited license area only and it must be the first district choice.
  - Application deadline - June 1.
- **Unlimited Licenses** - These licenses are awarded either through the special drawing or by purchase at the Department of Fish, Wildlife and Parks' Helene Headquarters. If appying for a limited license area also, the unlimited license area must be listed as the second choice erea. Sportsmen are guarenteed en unlimited license.

For example, if a sportsman is unsuccessful in the limited license area special drawing and has properly filled out e "second-choice" under "unlimited license area only" he is guaranteed to receive the unlimited license.

If a sportsman chooses not to apply through the special drawing, he may purchase the unlimited license through the Special License Section et the Helena Headquarters no later than August 31.

- Each bighorn sheep license is valid in the hunting district(s) and for the time period specified on the license.
- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- Sportsmen hervesting e bighorn sheep must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head and cepe intact.
- Sportsmen harvesting e bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determinetion of legality.
- Sportsmen harvesting e bighorn ram must personally present the complete head end cape **intact** within 48 hours to eny Fish, Wildlife and Parks office, Game Warden, or designated employee in the administretive region where the bighorn ram was taken. At this time, a transportation permit will be issued.

  The bighorn ram head must be plugged or pinned at eny Fish, Wildlife end Perks office within 10 days efter harvest.

A listing of designated personnel and phone numbers will be provided to ell bighorn sheep license holders. If a reporting hunter is unable to contact any of the offices, wardens, or designated personnel, he may call the toll-free number 1-800-332-6117.

- There is no ARCHERY ONLY season for bighorn sheep.
- It is illegal to possess e sheep head picked up in the wild.
- Recent legislation authorized the Fish and Game Commission to provide for the euction of a bighorn sheep license each yeer. This license authorizes the sportsman to take a 3/4 curl or greeter ram in eny district(s) of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the sheep will not be counted against the district quota. This license holder may only hunt in areas open to hunting (i.e., if an unlimited area closes due to reaching the quota, the license holder may not hunt in that erea).

Trophy Field Care

Three elements can ruin a trophy mount: heat, blood end demeged hair. Hide damage can be avoided by epplying the following "field care" principles.

Werm temperetures end the animal's body heat can combine to rapidly deteriorate the hide. Heet problems result in heir falling or "slipping" from the hide. To dissipate heat, skin or "cape" the hide as soon as possible. Lay the skinned cape flat, hair side down, to ellow the air to circulate eround it. At home, take the cape to e taxidermist or store it in e freezer. Trophy heads stored in e freezer for more than e month should be wrapped in a wet towel to prevent dehydration of the eyes, ears, nose end lips.

Bloodstains should be evoided because they are noticeable on ell but the very derkest colored animels. Limit bloodstains by caping the enimal **before** it is field dressed. Cotton weds placed in the nostrils of lung-shot enimals will prevent blood from staining the muzzle. Blood should be removed with emple amounts of weter es quickly es possible but never submerge the hide or let it soak.

Do not "bleed out" e potential mount by cutting its throat. Do not drag the trophy or use ropes around the trophy's neck or head.

When caping or skinning en animal, elways pull the hide eway from the flesh and cut toward the meat to evoid cutting holes in the skin.

Caping Your Trophy

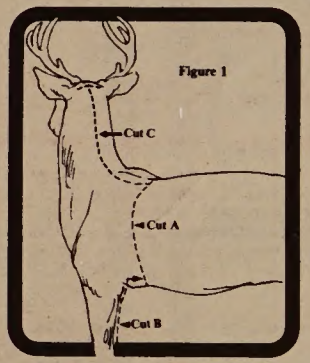

Figure 1: **Shoulder mounts:** Cut A is a circular cut eround the girth of the enimel. Make sure the legs ere perpendicular to the body, then begin Cut A six or more inches behind the front legs. Cut B is made up from the back of the dejointed knees to the leg pit; then cut back to join Cut A. Cut C is a continuous cut up the back of the shoulder and neck to the base of the head. The head and cape are now ready to be cut from the neck.

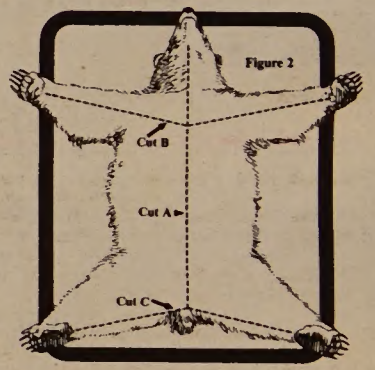

Figure 2: **Life-size and rug mounts:** Roll the animal on its back and stake the legs epart. Make Cut A from the base of the tail to the center of the throat (do not cut the lower jaw and bottom lip). Make Cut B from behind the large pads on the front paws end dejoin the feet from the legs at the "wrist." Cut C, elong the hind legs, is made in the same manner es Cut B. Skin the trophy from the hind legs toward the head. The head and hide should be removed from the carcass together. Leeve the complete skinning of the head and feet to a taxidermist.

SPECIAL DRAWING APPLICATIONS

MANDATORY INFORMATION. If steps 1-5 are incorrect or incomplete, your application will not be entered in any of the special drawings applied for on your application. This information is very critical, so please double check your work.

SPECIAL DRAWING APPLICATION CHECK LIST

Every year several sportsmen are eliminated from our special drawings because of an error on their application. Improper hunting district numbers listed is one of the most common errors. To help prevent you from making this mistake, we have developed this listing of valid hunting districts.

Double check your special drawing application. Using this checklist, match the hunting district number for each species on your application with the corresponding district number on this checklist.

If the number on the application is not on this checklist, you have made an error on your application.

If you have made an error, refer back to the regulations for the specie in question to obtain the proper hunting district number or call the Special License Section at 444-2950 for further assistance.
